

My dear Colleague

Thanks for everything.

You all and few who have now superannuated have been a wonderful companion of my journey at NML. I preserve in my heart. I am full of gratitude and frankly unable to express myself in words. I acknowledge the togetherness at personal as well as professional level from most of you. Besides my all scientific colleague where we worked together in different projects the support I received from Workshop, purchase and other departments was very helpful to carry out the research work till date.

As head of Corrosion and Surface Engineering, I enjoyed it very much as we worked in cohesion and very friendly throughout the period and did a lot of projects. A shorter stint, 10 months, heading to then AAC division as additional charge gave me the chance to work closely with more colleagues. I am thankful to all of them, I learnt a lot. Working as Head HRG I thank Sri Kaushik Bhattacharyya and EI all member Rahul, Ajay, Amod ji and the team who were all the time with me and this experience gave me a lot learnings. I got valuable experience of more than 11 years as SPC-II and TPC Member ( Thomas, M. Dulipkumar, N. K Singh as SPO different times during that period) for equipment purchase which gave me chance to know many different instruments functioning, which otherwise I would not have known them if I am not using for my research, and the procurement procedures which enriched my knowledge and experience immensely.

The help received as and when required from all departments and members of the administration including Medical I acknowledge from the heart to all of them and special mention Late Mr. Majhi, Lakra ji, Bhushan Mishra ji, Kujur ji, Paswan ji, Pradhan Ji, Balra ji, Prakash, P. Suman, Kandulna ji, Ghosh da, Nayeem, Anirban, Uttam jha ji, Raju, L. N. Singh, A.K. Pandey ji, Anand, Amerendra ji, Premjit, Capt. Lal, Mukhi. Dr. Ram, Dr. Acharya and Dr. Arya.

I am thankful to the NML Directors ( Late Prof. Ramchandra Rao, Prof. S. P. Mehrotra, Dr. S. Srikant, Dr. Indranil Chatteraj) who trusted and showed their confidence in me by giving me chance to serve in many different important committees and different nominations done for the awards that made me better at different fronts.

I have tried my best to do wherever I was at NML. If my any action which might not have been liked or we argued they all were with no personal intention but more of the opinion what I felt right and were not directed to any person but the situation. I ask forgiveness for any hurt unknowingly might have happened.

I am very much emotional within the heart as now I am moving to CGCRI, feeling like home leaving. NML has been a wonderful place for me. I need blessings for future assignments. I pray & wish NML and all of you higher growth at organizational and personal level respectively.

**Once again thank you all.**

**Always yours and I trust you all are always mine.**

Suman
