ReBAT- first event in India, organized under the aegis of CSIR 4M Theme (Strategic Metal Sub-Vertical) & CSIR Bulk Chemicals Mission Project on Li-ion Batteries, is aimed for Lithium Ion Battery (LIB) Manufacturers & Recyclers, to witness the business opportunities.

This event strives to bridge the gap in the battery supply chain for manufacturers, dismantlers, recyclers, and service providers. It would envisage the discussion on the real challenges and opportunities in recycling EOL LIBs for economic, environmental, and strategic benefits to the industry and India.

## KEY BENEFITS

- Realization of Current Market Dynamics and Growth Potential
- Manufacturer/ Recycler case studies
- Solutions for Technical issues in LIB Recycling
- Environmental and safety regulations for managing EOL LIBs
- Exclusive networking opportunity
- Showcasing of CSIR Technology
- Value Chain Linkage of end-users
- New market opportunities
